

Supplementary Material for Evaluations of Dynamic Gaussian Splats versus Point Clouds for Sparse Captures

Simone Croci, Athanasios Charisoudis, Kit Yung Lam and Aljosa Smolic Lucerne University of Applied Sciences
and Arts, Rotkreuz, Switzerland

This document presents the supplemental material of the paper *Evaluations of Dynamic Gaussian Splats versus Point Clouds for Sparse Captures*.

I. GAUSSIAN SPLAT ANALYSIS OF DYNAMIC RECONSTRUCTIONS

A. *All Reconstructions*

B. *Den's Reconstruction*

C. *Nathalie's Reconstruction*

II. GAUSSIAN SPLAT ANALYSIS OF STATIC RECONSTRUCTIONS

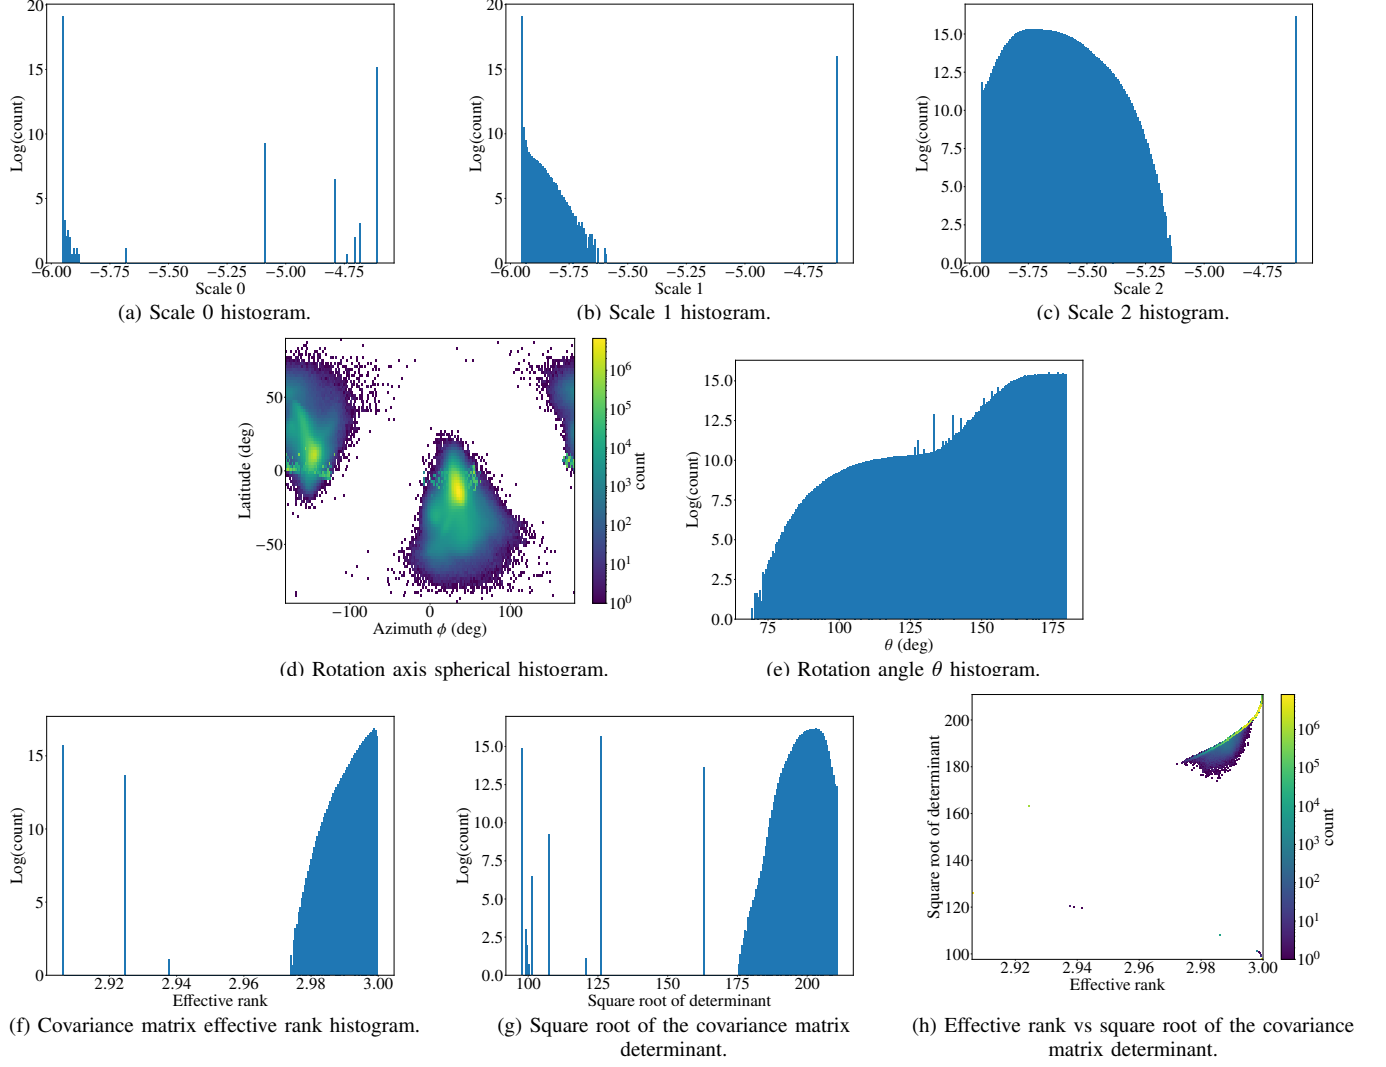

Fig. 4: Analysis of the Gaussian splats from Philipp 5 analysis dataset.

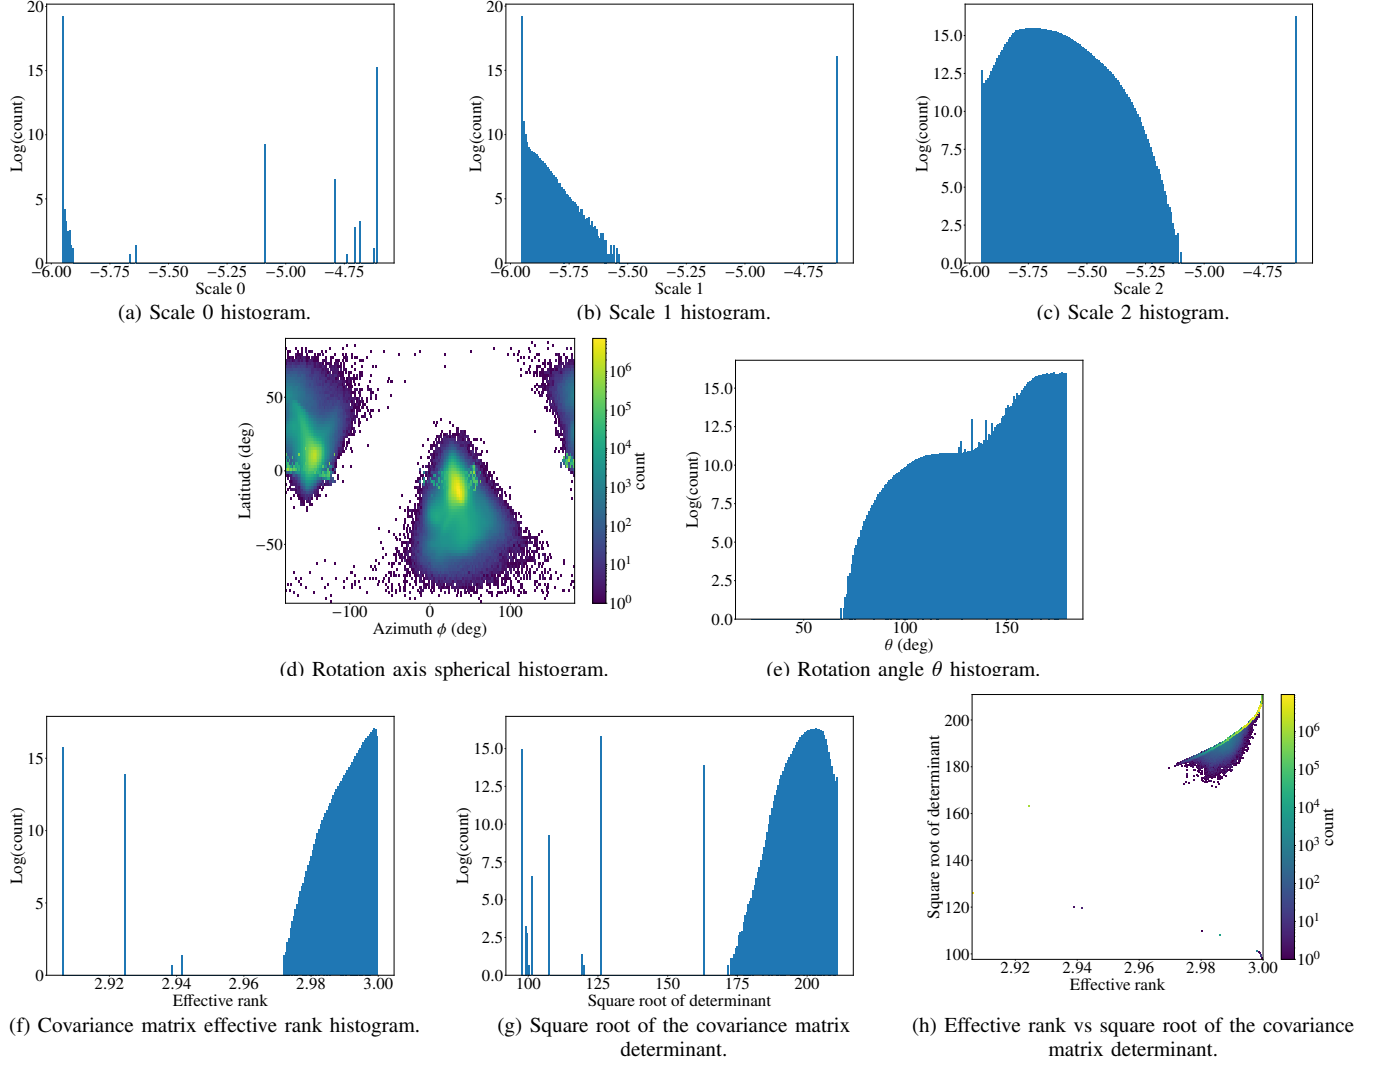

Fig. 5: Analysis of the Gaussian splats from Philipp 6 analysis dataset.

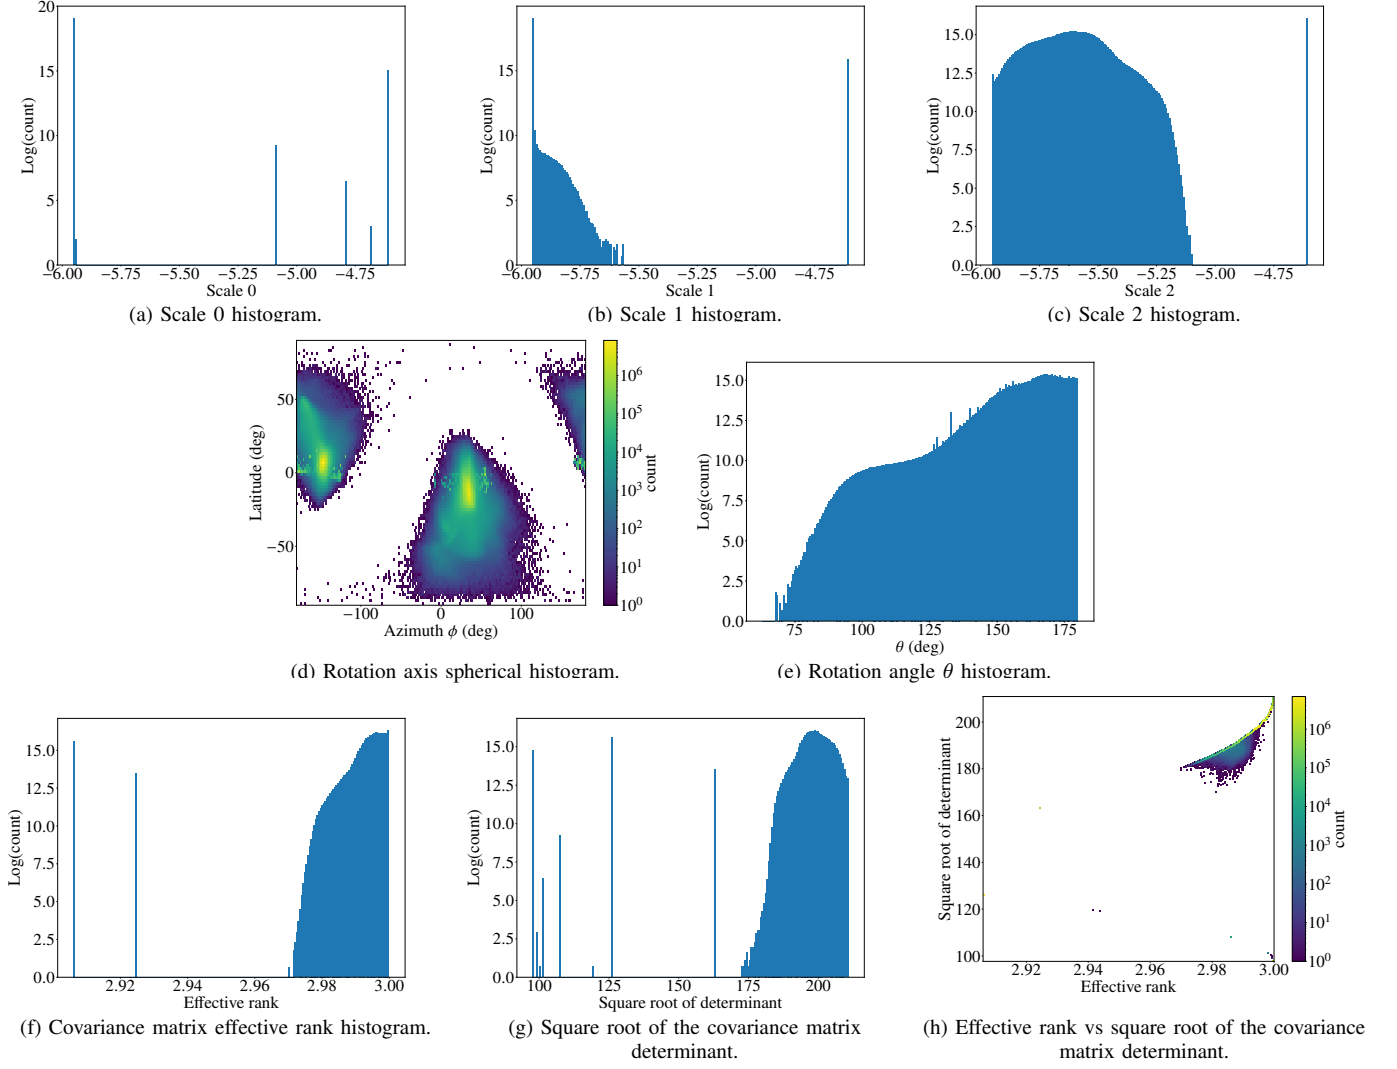

Fig. 6: Analysis of the Gaussian splats from Simone dataset.

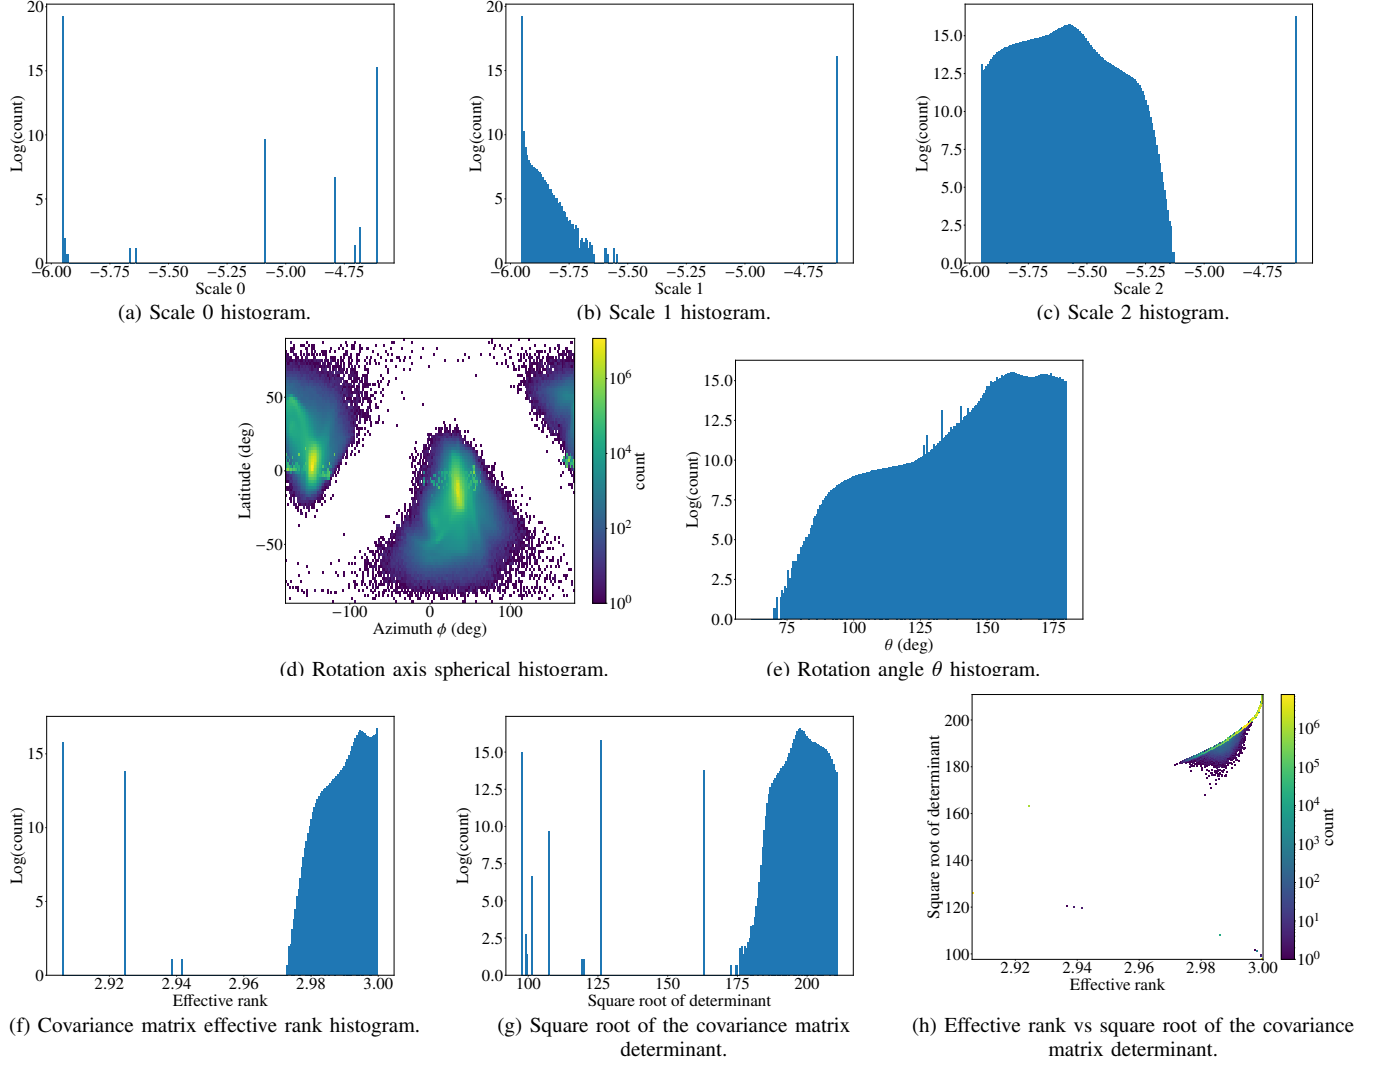

Fig. 7: Analysis of the Gaussian splats from Thanos dataset.
